Earthed: Earth wire / earth by extraction tube  
Pneumatic connection: ¼" thread  
Advisable working pressure: 3 – 4 bar (pressure regulator included)

ATEX marking: European norm 2014/34/EU

**CE Ex II 2 G c IIB T4**

## Remarks

The quick and compact Hamach Spray Gun Washer increases your productivity by enabling you to quickly change colors. Flushes your spray gun quickly with water in a matter of seconds, guaranteeing a clean and dry spray gun! Limits your time loss and gets the highest efficiency out of your disposable cup system. Safely clean and dry your spray gun, with this waterborne solution.

This easy to install cleaning device is easy to operate in three simple steps: Jet, Flush and Dry. This device ensures a clean and safe working environment due to its integrated cans and is durable and easy to cleanse due to its stainless steel body.

### Guarantees overall cleanliness:

- A properly cleaned paint channel, ready for the next job
- Limited use of water and waste
- No messy cleaning with inadequate squeezing bottles
- Integrated jerry cans (no cans on the ground)
- Executed in full stainless steel (easier to clean / better quality / durability)

**Notes**

- Suitable for ATEX zone 1 & 2, but also allowed to be used outside the mixing room, working with a water based cleaning solution
- A great solution for intermediate cleaning between colour changes (water borne paint that has been dried out, cannot be cleaned with just water)
- It is recommended to fully clean (take apart) your gun once in a while
- Provide proper personal protection while cleaning (wear gloves and goggles)
- Recycle or coagulate the waste water in accordance with local regulations
